WD-40

The long-term active ingredient is a non-volatile, viscous oil which remains on the surface, providing lubrication and protection from moisture.

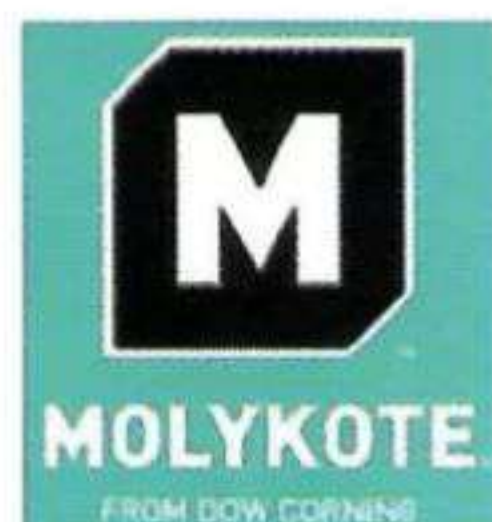

CRC CO-CONTACT CLEANER

Is an inert cleaner for electrical / electronic equipment. It removes contaminants, dust, dirt, atmospheric oils, moisture or fingerprints.

OKS 1361

Parting agent and lubricant for use in processing plastics. Chemically neutral. Solvent-free. Colourless. Displaces water. Fitting aid for rubber profiles. Lubrication of cutting edges.

MOLYKOTE - HSC Plus

Paste Spray - Wide service temperature range, high load carrying capacity, good corrosion protection, prevents seizure after long exposure to high temperatures, good electrical conductivity.

3M - Stainless Steel Cleaner & Polish

Cleans & polishes in one operation, leaves no greasy film, does an outstanding job on stainless steel, chrome, architectural aluminum & other interior metal surfaces.

MOLYSLIP

MolySlip - High Temperature Anti-Seize Compound
Formulated to protect against seizure of metal parts even under extreme conditions of pressure and temperature and in corrosive environments. Working temperature range (-40C to +1100C)

LOCTITE

Loctite - 8021 Lubricant Schmiermittel
For Protects, maintains and Lubricates plastic & metal parts. Does not attract dust or dirt. Does not affect painted or plastic surfaces.

**FORMA
PUR**

Forma Pur - Self-Expanding Foam

ABRO

ABRO - Chrome Plate Spray Paint
Use ABRO spray paint for a clean, bright finish on furniture, wicker, tools, lamps, wood or metal cabinets, patio furniture, etc. For interior or exterior use.

ABRO

ABRO - Color Spray Paint
Use ABRO spray paint for a clean, bright finish on furniture, wicker, tools, lamps, wood or metal cabinets, patio furniture, etc. For interior or exterior use.

LPS - Bearing Grease ThermoPlexFoodLube

For use in areas where incidental food contact may occur or in applications where clean, nontoxic lubricants are preferred. ThermoPlex FoodLube not be mixed with other grease.

SKF - Bearing Grease General Purpose

General purpose grease for medium/large sized rolling bearings and relative moving parts. Extremely good water resistance.

OKS - 404 Temp. -30C -> +150C

High Performance and High Temperature Grease For lubricating high pressure loaded roller and friction bearings in a wide temperature range.

OKS - 424 Temp. -30C -> +200C

Synthetic High Temperature Grease For roller and plain bearings subject to high temperatures, high loads and corrosive atmosphere

CRC - Multi Purpose Grease

Universal lithium-EP grease for rolling and sliding bearings under high loads, shocks and vibrations. Temperature range -30C to +130C (short term +140C).
